

Engineering office systems and methods together with schedules and instructions for the collection of preliminary data for engineering projects . materials conducting domestic and export

By John Percival Davies

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 208 pages. Dimensions: 9.7in. x 7.4in. x 0.4in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1915 edition. Excerpt: . . . and over-run in weight of castings, it is necessary to add a percentage to the net calculated weight varying from 5 percent in the case of large castings to 10 percent in the case of small pieces with numerous fillets. Table VIII. --Unit Weights of Substances most commonly used in Machinery Estimating Detail Sheets In Fig. 83 is given an example of a convenient form of sheet for recording the details of an estimate. Its use practically compels a certain amount of system in taking off the quantities; so that all plates, all loam castings, etc. , will be listed together and cost computed at the proper rate. By preparing the material-estimate in this methodical manner, and by checking-off each piece as listed by a red mark on the print, no serious omissions of items should take place. The same form may be used...

Reviews

These sorts of pdf is the greatest ebook offered. We have study and that i am sure that i will going to study once more once more in the future. Its been printed in an remarkably simple way and it is only after i finished reading through this pdf through which in fact transformed me, affect the way i believe.
