Researching Health Needs: A Community Based Approach (Hardback)

By Judy Payne

Sage Publications Ltd, United Kingdom, 1999. Hardback. Book Condition: New. 239 x 156 mm. Language: English . Brand New Book. [It is] difficult to find a single volume that addresses the specific range of methodological challenges [in] health needs assessment! Judy Payne s book is a very welcome answer to this problem. [This book] offers a lucid d logical exposition of the research process. It begins with a short introduction to the relevant policy context and a clarification of the terms health , need and community . The following chapters cover the planning stage of a project! The book then moves on to the empirical stage of research! The volume concludes with a number of short case studies! It uses research terminology judiciously, providing clear explanations and illustrations. A useful selection of references to additional texts is also given. [T]he identification of a range of typical problems associated with the interpretation of official statistics will help would-be investigators to avoid drawing wrong conclusions about the health status of different groups. There is a useful and succinct description of a number of deprivation indices, together with relevant references. The sections on sampling strategies and the analysis of statistical data are particularly good...
