It begins with an explosion. Lela Whites life hasnt been the same since the space shuttle disintegrated into a bright blue sky when she was a ten year old girl. Since her mother disappeared without a word or explanation. Years later, the world has moved on, but Lela hasnt. Her precisely-ordered world revolves around both events. She cant forget. She cant let go. She can only prepare for the worst: the day she has to kill to keep the space shuttle from exploding again. A novel that explores mental illness and the impact of national tragedies, The Trajectory of Dreams is told from the point of view of Lela White, a gravely mentally ill woman whose delusions compel her to break into astronauts homes to watch them sleep. Only her careful monitoring of their REM cycles and judgments about their fitness for space flight can keep the shuttle program safe. The greater good is the only thing that matters. She cant be found out or have her work interrupted. Lela finds a way to balance her secret mission and her daytime job as a technician in Houstons premiere sleep lab. When Zory Korchagin, a Russian cosmonaut on loan to the U. S. shuttle program, finds himself drawn to Lela, he puts her carefully-constructed world at risk of an explosion as surely as he does his own upcoming launch. As Lelas universe unravels, no one is safe. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
