RareBooksClub. Paperback. Book Condition: New. Paperback. 48 pages. OCLC Number: 52569992 Excerpt: . . . At least 29 lead battery recycling sites are or have been slated for investigation and possible remediation under the Superfund program. The paper condenses information regarding the characteristics and remediation of these sites. The information provided includes: (1) description of operations commonly conducted and wastes generated, (2) technologies implemented or selected for site remediation, (3) case studies of treatability studies on common wastes, (4) past experience regarding the recyclability of materials found at the sites, and (5) profiles of potentially applicable innovative treatment technologies. Developments in Chemical Treatment of Contaminated Soil, Symposium Paper. Davila, B. and Roulier, M. H. , U. S. Environmental Protection Agency, Cincinnati, OH, Office of Research and Development, Risk Reduction Engineering Laboratory, 1992 EPA Document Number: EPA 600 A-92 030 NTIS Document Number: PB92-152933 XAB The U. S. Environmental Protection Agency's Office of Research and Development (ORD) is examining processes for remedial action at Superfund sites and corrective action at operating disposal sites. Recent legislation emphasizes destruction and detoxification of contaminants, rather than containment or storage of contaminated soils. Chemical treatment appears promising because it can destroy or greatly change many contaminants. Oxidation, reduction, neutralization, hydrolysis, dehalogenation, and UV photolysis are chemical processes currently used for above ground treatment. Temperature and physical and chemical characteristics of soil are some operating parameters that control the effectiveness of these processes. Excalibur catalytic ozone technology, Exxon and Rio Linda cyanide destruction, and Trinity ultrasonic detoxification are innovative technologies that have been, or are currently being considered, for pilot-scale demonstrations. Dioxin Treatment Technologies, Background Paper. U. S. . . This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN....
