IN VITRO CULTURE STUDIES OF *CARDIOSPERMUM HALICACABUM* L.

LAP LAMBERT Academic Publishing. Paperback. Book Condition: New. Paperback. 52 pages. Dimensions: 8.7in. x 5.9in. x 0.1in. Plant tissue culture is a branch of plant biotechnology which works on the principle that all plants have totipotency. Plant tissue culture has become especially important in the agricultural community over the past many years. During this time period, plant tissue culture have effectively moved from the confines of small laboratories and has taken its place among main stream, broad scale techniques employed by...

Reviews

This is the finest ebook i have got read through till now. It really is full of wisdom and knowledge You wont sense monotony at anytime of the time (that's what catalogs are for relating to in the event you ask me).

-- **Mr. Edison Roberts IV**

It is an incredible book which i actually have ever go through. it had been writtern extremely completely and helpful. You can expect to like the way the blogger publish this book.
