Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from 1896: Illustrated General Catalogue of the Buffalo Horizontal and Upright Steam Engines, Mechanical Draft Fans and Apparatus, Steel Plate Steam and Pulley Fans, Fan System of Heating, Ventilating Fans, Blowers and Exhausters The usual machinery catalogue, being largely confined to mechanical description and construction, contains little information valuable in engineering lines; and in placing the output of most iron manufactories, less illustration of application and uses is required than in the case of air-handling apparatus. While a comparison of the present book with the last will indicate a marked advance, if the progress of an establishment is to be judged solely by its new catalogues, as is often wont, then this publication falls far short of fulfilling that duty. Our general catalogue preceding this issue was compiled in 1892. It possessed many unique features, prominent among which was the presentation of a large amount of data hitherto unavailable and relating mainly to the application of Buffalo Blowers and the Fan System of Heating, Ventilating and Drying. Several large editions, duplicate of the original, have been necessitated to supply the demand from engineers and architects at home and abroad. Such marked favor naturally appeals to us to further enhance, in a like manner, the value of the present work. The new and original matter herewith presented in forms of practical value, we believe will accomplish the desired end admirably. The facts and figures embodied herein are derived from actual installations of the various apparatus to which they relate. Being compiled from actual test records, they are not to be compared in value with the theoretical calculations commonly published; such at the best are unreliable. Most extensive...
