It has been heretofore, impracticable to use them in a number of situations because of their bulk and absence of portability. Owing to their construction the recording pens are in constant contact with the sheet making a continuous record, thus the instruments cannot be moved without making the record illegible. In the hythergraph the pen is on the sheet less than a minutes time; this makes it possible to use it in airplanes, balloons and on all kinds of aircraft generally. Besides being small (4x8x1 Inches) and light (weight 3 pounds) it is flat and indicates the temperature on one side and the humidity on the other. A dual record is made possible by the use of a continuous band of recording paper feeding over two rollers placed at such a distance from each other that the records can be readily seen. completed by...
